About Venture Leap

We are a team of experienced entrepreneurs and developers who enjoy building new things together. We help our clients to implement data-sensitive digital applications. Our clients range from start-ups to established companies across all industries, especially GovTech and HealthTech. Our product and client portfolio includes Civic (<https://civic.de>) and GovMind (<https://govmind.tech>). For this purpose, we use our custom-built API-first platform LEAP.one.

About your role

As Devops Developer, you will be directly working with our Tech Lead, handling our infrastructure.

What is your mission

- Analysis and setup of Docker implementation
- Creation and management of CI/CD pipeline using Github
- Installation of automated rollout of development instances
- Customer service for developers when dealing with server setup
- Created automated backup routines
- Supervision of monitoring and log recording
- Optimization and adaptation of new Docker technologies

Who you are

- You have a Bachelor or Master degree in Computer Science, Engineering, Mathematics, Physics, or related/relevant technical field
- You gathered 2+ years of work experience
- You are an expert in PHP technologies (Symfony, Laravel)
- You are familiar with modern tools such as Docker, CI/CD (Jenkin or Gitlab CI), Kubernetes, AWS
- You possess bias for action and ownership that you can demonstrate with your CV
- Our Mission: Digital Products - Done Right - does it resonate with you?
- You communicate very well in English, both written and spoken

What we offer you

- A highly entrepreneurial environment where everyone has ownership and freedom to move towards our ambitious goals while getting strong enablement from the founders
- Constant learning and progress of your knowledge through weekly tech talks and company supported Udemy, Coursera, etc. courses
- Partial funding of BVG-ticket & Urban Sport membership
- An open and international company culture with 15 different nationalities
- Flat hierarchies for creative ideas and unconventional approaches

- 28 days of paid leave

Are you up for the challenge? Let's change the world of digital products together and provide entrepreneurs and innovators with the best digital products out there!

We value diversity of perspective and seek to build an inclusive workplace that welcomes people from all different backgrounds.
